

REMARKS

The proposed amendments set forth above involve adding new claims 31-37 corresponding to the previous claims 20-26 respectively. These claims have all been examined, and the only objections raised in the Office action mailed June 12, 2009 has been obviated by the fact that the independent claim 19 has been allowed. Accordingly, the amendments do not raise any issues of patentability of the claims. Applicant therefore requests that the amendments be entered without withdrawing the application from issue.

Respectfully submitted,

/John Smith-Hill/
